DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9, 17-32 and 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 recites "high profile" which is considered relative. What is high to one may not be high to another.

Claims 17-32 and 34 recite "system" which is vague and indefinite since a system may be one of several different statutory classes of invention (including a method or an apparatus). Applicant must indicate on the record what statutory class of invention the system claims belong to. For the purposes of this examination these claims are considered apparatus.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 6-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Friedland et al in view of Stewart.

Friedland et al discloses a method, system and medium to facilitate network-based shopping. Communication between a network-based auction facility and a seller is disclosed, including restrictions (fig 5). Authorized bidders are recorded as authorized (para 0085).

Friedland et al does not explicitly disclose notifying the seller of the authorization.

Stewart discloses notification (para 0010).

It would have been obvious to one with ordinary skill in the art to include notifying the seller of the authorization to Friedland et al because Stewart teaches that notification enhances the business process (para 0010).

5. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Friedland et al in view of Stewart as applied to claims 1-4, 6-35 above, and further in view of Kumar et al.

Friedland et al in view of Stewart does not disclose adding and removing an authorization restriction.

Kumar et al discloses adding and removing an authorization restrictions (para 0044, 0048).

It would have been obvious to one with ordinary skill in the art to include adding and removing an authorization restrictions to Friedland et al in view of Stewart because Kumar et al teaches that business conditions may change over time (para 0044).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
